Goals and Resources: Charting the Course for the States ERP Consortium

Steve DeGabriele 617 556-1120 steven.degabriele@state.ma.us

What are our Goals?

- Communicating successes to build stakeholder support
- Sharing information among practitioners
- Expanding support within EPA & promoting ERP as an proven compliance strategy
- Improving & disseminating tools for easier automation & measurement

What are our Resources?

- The individual commitments of time and resources by our state members
- EPA Staff and Resource Support
- EPA support under individual State
 Innovation Grants (SIGs)
- EPA contractor support to the Consortium: website, results report, etc.

How Resources Affect Our Course and Achieving Our Goals

How Resources Affect Our Course and Achieving Our Goals (continued)

- The Increased Resource Course
 - Info Sharing
 - Building Support for ERP and ERP approaches
 - Reporting ERP Results
 - Automation

Discussion Items

Part 1: Any adjustments to our goals, resources, organization?

- Do we need to adjust any of our goals based on our foreseeable resource levels?
- Do we stay the course or take more proactive steps to increase (or decrease) our resource levels?
 - Should we create a Resource Procurement & Management Work Group?

Discussion Items (continued)

- Do we need to make any organizational changes at this time, i.e., create a new work group, drop a work group, adjust a work group?
- Do we need to refresh any current work group membership?

Discussion Items (continued) Part 2: Any adjustments to our work group action plans over the next one to three years?

- Info Sharing
- Building Support for ERP and

ERP

- approaches
- Reporting ERP Results
- Automation

Next Steps?
